1064 Modem™

FOR COMMODORE 64

- Auto Answer/Auto Dial
- Direct Connect to Phone Line
- Includes AC Adapter/ Power Supply
- Plugs Onto User Port
- 1 Year Warranty

INCLUDES

VIP™ Terminal Software

VIP™ Terminal is your key to the world of communications. VIP™ Terminal is a full featured, machine code smart terminal program that allows the user to communicate with any host computer or microcomputer with 300 baud modem capabilities. And it gives you a professional 80 column display!

VIP™ Terminal is totally user friendly. It gives you the task icons, built-in help, pop-up menus - this might be the easiest terminal program you'll ever use! Yet it has features to please the most experienced user.

- True 40, 64, 80 - even 106 column display with no additional hardware.
- Auto-dial with redial at user-defined intervals until connection is made.
- 20 programmable keys.
- 16 entry telephone directory with auto log-in.
- Receive and send BASIC or machine language program files as well as sequential files.
- Upload & download protocol: ASCII, CBM-Punter, Xon/Xoff & binary.
- Works with any printer to print your data.
- Built-in clock and alarm displayed. Hourly chimes.
- VT52 terminal emulation.
- Word Wrap for formatted display.
- Support G4 graphics mode for pictures. Used by CompuServe and many others.
- Auto buffer option for downloading programs.
- Change RS-232 parameters for communications with computers using non-standard protocols.
- Baud rates of 50, 75, 110, 134.5 & 150, and 300.
- Standard 128 symbol ASCII character set with ESCAPE & line break.
- Selectable trapping of unwanted characters.
- Help Menu.
- Full/Half duplex option.
- Full disk drive commands supported.
